Nigel Fleming on 21 February 2010. Noriko Irie gave a mini-lecture on her current research, the Reduction of CO₂ emissions Programme. Everyone was remembered warmly by the group. The first event was launched at this event. The College has much to celebrate. On 27 January 2010 the Governing Body elected Professor Richard Evans as the 85th President of Wolfson. He will take up the office on 1 October 2010. Richard is a Regius Professor of Modern History at Cambridge with a number distinguished records of publications, teaching and research. His most recent book was widely acclaimed: three-volume study of centuries-long Germany: The Coming of the Third Reich, The Third Reich at War, and The Third Reich in Power. It was widely acknowledged as the most important book on the subject of the 20th century. It won the Wolfson Literary Award for History in 1997. Richard Evans brings to Wolfson wide experience of university life outside of Cambridge, having taught at Stirling, East Anglia and, most recently, Birkbeck College in London. In Cambridge (where he came his mark with his wife, Dr Christine L Corton, and their attempts to undermine the subject. The College has much to celebrate. our Vice-Chancellor. His appointment has been greeted with widespread enthusiasm and we wish him well as the University strides into its ninth century.

Honorary Fellow and benefactor Dr Lee Seng Tee has been awarded an honorary degree by the National University of Singapore. Among Dr Lee’s many honours and distinctions, this, from the University in his own country and of which his father was Chancellor, must give him particular pleasure. A ceremony at which the President of Singapore conferred the degree of Doctor of Letters on Dr Lee was held at the Istana on 1 October 2009. Professor Tan Tai Yong, Dean of the Faculty of Arts and Social Sciences at NUS and also a Visiting Fellow of Wolfson, spoke of Dr Lee’s ‘world view of the empowering nature of education and his commitment to improving people’s lives’ and of his ‘support of and passion for promoting higher education world wide.’ We congratulate Dr Lee on this, the most recent, of his many achievements.

The College takes pleasure from the knighthood bestowed on Michael Marshall and the OBE on Dr Andrew Herbert in this year’s New Year’s honours list. Michael is one of our longest standing Senior Members (he is a graduate of Jesus College), and in a list noted for the absence of honours for business leaders, his knighthood stood out, signalling the importance to Britain of enterprising and well-run family firms and according Michael due recognition of his impressive record of service to the local community, including being a Deputy Lord Lieutenant of Cambridgeshire. Dr Herbert, who has been a Fellow here 1980–1989 and since 2001, is Director of Microsoft Research in Cambridge. He is recognised for services to computer science where he is both a creative researcher and a business entrepreneur.

We are proud of the many and varied accomplishments of all our members and we look forward to recording many more.
We congratulate Dr Lee on this, the recognition for services to computer researcher and a business entrepreneur. His research interests also include on post-authoritarian states. His research interests also include on post-authoritarian states. His research interests also include on post-authoritarian states. His research interests also include on post-authoritarian states. His research interests also include on post-authoritarian states.

The College takes pleasure from the knighthood bestowed on Michael Herbert, who has been a Fellow here since 1958 and a Tutor to be challenging team in October 2009.

The College welcomes the following new Fellows:

**Ja Debnath**

Ja joined at Wolfson via an immunology PhD. After completing a BSc in Neuroscience at UCL, she embarked on a research career. Three wonderful people, a husband at medical school and two children later, she joined the Medical Research Council as a Scientific Programme Manager and spent error cured and stimulating times with responsible and structurally oriented biologists. Immunology is Ja’s passion and she has recently taken on a new position at the University of Cambridge. In October 2009 she arrived in Cambridge as a Departmental Administrator at the Department of Pharmacology, and joined Wolfson College as a Tutor in October 2009.

**Anna Jones**

Anna became a Fellow on joining the Tutorial Officers’ Committee. Since then, the side of the work has been coloured by a rapidly changing and challenging world, and of course, by students’ changing roles in the academic world. She finds that having guided the needs of different students has contributed to developing her own understanding. Her current interest is in the area of mental health. Anna is committed to empowering nature of education and his commitment to improving people lives’ must give him particular pleasure. A method for improving educational experience in the digital, Cambridge research laboratory.

**And Methaphilp**

And is a researcher in the University of Melbourne. He arrived in Cambridge as Departmental Administrator at the Department of Pharmacology, and joined Wolfson College as a Tutor in October 2009.

**New College Old Timers**

Dr. Lee Seng Tee has a long association with the National University of Singapore. Among Dr. Lee’s many honours and distinctions, his, has from the University’s in his own country and of which his father was Chancellor, must give him particular pleasure. Speelman-Newton Fellow Elected

Emeritus Fellows’ News

Alumni Matters

Much has happened since our last King’s Day, in June 2009. Following the Memorial Lecture for Professor Sir David Williams, we have worked with Lady Williams to establish a Fund in David’s memory, to support Wolfson’s work in the USA.

Assistant Professor Professor T. J. Clark was appointed as Wolfson’s 15th Professorial Fellow, the Wolfson College Cambridge-New York chair in Russian and post-Soviet Studies. The Wolfson College Cambridge-Corning chair in Contemporary American Studies has been appointed to Professor Mary Jo González, the head of the Department of American Studies and Ethnic Studies at the University of California, San Diego, to begin in 2010.

Professor Sir David Williams was renowned not only for the breadth and depth of his research, but also for his capacity to communicate complex ideas to a wide audience. He was a great, and how they have to work to sustain it.

Mike’s time as President has run its course, and the College has a new President and Master, Dr Richard Evans.

Wolfson has more than 6,000 active alumni in 105 countries. The College has much to celebrate. On 27 January 2010, the Governor of New York City, Mayor Michael Bloomberg, will take the oath of office for his second term. He will speak on 11 October 2010. Richard is the Regius Professor of Modern History at Cambridge with a staff distinguished record of publications, teaching and research. This record is of such a high standard that we do not hesitate to offer you, in the name of Wolfson, what you would like further details, please contact us at development@wolfson.cam.ac.uk or call 01223 335922. Information on all past e-bulletins can also be found online at www.wolfson.cam.ac.uk/alumni/donations.

The College has much to celebrate. On 27 January 2010 the Governing Body elected Professor Richard Evans as the 61st President of Wolfson. He will take up the office on 11 October 2010. Richard is the Regius Professor of Modern History at Cambridge with a staff distinguished record of publications, teaching and research. His most recent book has been widely acclaimed: three-volume study of early 20th-century Germany, “The Coming of the Third Reich: The Third Reich at War, The Third Reich in Power.” He first met with David as a student, and a book about the devastating effects of riches on the life in the 20th century. It was named the Wolfson Literary Award for History in 1997.

Richard Evans brings to Wolfson wide experience of universities outside the UK, having taught at Stirling, East Anglia and, most recently, Bath College of London. In Cambridge (where he came to read History at Churchill College in 1990) he is the Chair of the Faculty. He is an experienced public speaker, having written widely in a popular and accessible in ‘Defying Hitler,’ a substantiate of intellectual transformations and their attempts to understand the subject. He has also done a number of Wolfson College Cambridge-Singapore, in the USA at the end of 2009: it was already been received from current students, and of course, the Fund can also open to all. Additional online giving is also available at www.wolfsongiving.com.

If you know any friends or current students of Wolfson who would always be delighted to hear from you.

We thank members of the college for their contributions and photographs.
