

ADDING TERM TIME ADDRESS ON CAMSIS:

Go to your 'Personal Data' by clicking on www.camsis.cam.ac.uk/students

Go to 'Addresses' and choose 'Term Time Address'.

This is where you live during the University Term and must be updated with current information. *Please note that the 'Home Address' is your usual family address and usually, not the same as the address in Cambridge.*

The screenshot shows the 'Personal' page in the CamSIS system. The 'Addresses' section is highlighted. A blue callout box explains the different address types: Home Address (usual family address), Mailing Address (postal address), Term Time Address (where you live during the University term), and First Destination Address (where you live after you graduate). Another blue callout box points to the 'Add', 'Edit', and 'Delete' icons, stating 'You can add, amend or delete addresses here.' The 'Term Time Address' section shows 'No address defined' and an 'Add Term Time Address' button. The 'First Destination Address' section shows a table with one entry.
