

ORIENTATION WORKSHOPS SUNDAY 4 OCTOBER

- Please note that some are in person and others are online. Online sessions will be held via Zoom. If you are not already a Zoom user, you will find information about how to get started using this programme [here](#).
- Please book a place either from the link below, from the front page of the [college website](#) (by scrolling down), or the [college Events page](#). This is particularly important for in-person sessions as there is a limit on the number of people that can be accommodated in certain rooms.
- For online workshops, you will receive the relevant Zoom link to the workshop in the confirmation email.
- All in-person events have been planned to ensure that they follow the College's Covid-secure policy. They will be conducted with a social distance of 2 metres between participants; please also bring a face covering and wear it if you wish or if a member of your break-out group requests it. You may wish to bring some warm layers of clothing as the rooms for the in-person sessions will be well-ventilated.
